Re: Reference Letter – Advanced Precast Inc.

We are pleased to provide the following letter of recommendation for Advanced Precast Inc.

Cecchini Group & Advanced Precast were able to come together and work on the Multimatic Head Office project together in Markham, Ontario. During the course of construction Advanced Precast demonstrated many outstanding qualities including: professional construction approaches, ability to manage required changes during the course of work, and excellent communication.

Advanced Precast genuinely shared our commitment to the project and helped us carry along our demanding schedule. Working in conjunction with Advanced Precast, we were able to quickly establish a high level of trust between one another which is critical when construction is moving quickly. From the start of the project, Advanced Precast brought an energy, attention to detail and a genuine concern for the well-being of the project.

Advanced Precast was a pleasure to work with and we will recommend and look forward to working with them on future projects.

Regards,

Cecchini Group Inc.
