Re: Letter of Reference

Dear Andy,

I am pleased to provide this letter of reference to Advanced Precast.

Over the last 18 years, I have had the pleasure of partnering with Advanced Precast on numerous significant projects across Canada. Advanced Precast has always endeavoured to service EllisDon and ultimately our valued clients with the essential values we look for in our selection of subcontractors:

- Sound technical and architectural advice and willingness to co-operate with our design teams
- Competitive pricing
- Equitable subcontracts
- Quality shop production and field installation
- Safety in the shop and field
- Schedule compliance
- Project closeout

We are proud to have witnessed the growth of Advanced Precast alongside our growth. We fully recommend them as a potential precast provider to other builders, developers and owners and wish them all the best in the future.

Yours truly,
EllisDon Corporation

Doug Aris, P.Eng.
Estimating Manager
